

## AKAMAS JEEP SAFARI

The Akamas National Park is possibly the most picturesque corner of the island. It's where you will find wild landscape, amazing natural beauty, deep gorges, and wide sandy bays...

Avakas gorge is an amazing masterpiece of nature and it is located at the start of the Akamas peninsula. It is one of the natural wonders of Paphos region and one of the best places to visit in Cyprus, especially for people who love walking as it offers magnificent nature views, including rich local flora and fauna.

Lara Beach is located in Akamas Peninsula and it is a beach which is deserted as it is a protected area. The soft sand is plenty and is in a bay which has the shape of a horseshoe. Lara is the birth ground of the green turtle. The only inhabitants are wild goats, birds and turtles.

## JEEP & DEEP SAFARI

A combination of a 4X4 Land Rover & Boat Safari.

The Blue Lagoon is a shielded bay where the water is usually warmer than the rest of the area. Its amazing location and the crystal waters give you the ability to see the sea depths. The Blue Lagoon bay is sandy and not very deep, perfect for relaxing in a natural swimming pool. There is also a reef perfect for those who want to go snorkeling or diving as there are plenty of fish and rocks around the area. The cleanliness of the water, its colour and in general the aura will make you love it and dive into the cool water or just gaze at the breathtaking views.

Adonis Baths Waterfall was formed due to the water from the surrounding ravines. With the passing of time the water has eroded the soil resulting in a small lake. During the summer many people seek places like this with cool water to enjoy and cool off. The most daring climb the rock with ropes and jump into the lake.

Available to book on:

**Every Day 60EUR adult/ 40EUR child (Available April – October)**

- Sea Caves and banana plantation (photo stop)
- Blue Lagoon by boat (45min by boat, swimming stop for 1hr, fruits and drinks for free on the boat, masks)
- Greek and Turkish Villages (drive throughout)
- Adonis Waterfalls (45min swimming)

# TROODOS JEEP SAFARI

The picturesque Troodos Mountain range is famous for its magnificent green cedar forests, amid orchards, vineyards and clean mountain air. The villages in Troodos are very charming with their folk architecture and cobbled streets. They are renowned for their warm welcoming hospitality and traditional local cuisine.

The Gefiri tou Tzelefu (Kefalos Bridge) is the largest and biggest medieval stone bridge ever built on Cyprus and it was built over the river of Diarizos. In ancient times the bridge was called Vokaria. The current name of the bridge Tzelefos meand weak or sick and comes from the word 'shell' which is connected to a person or incident during the construction of the bridge.

Kykkos Monastery is the most famous monastery of the island, in which is stored one of the miraculous icons of the Virgin Mary, written by the apostle Luke during her life.

Omodos is built on the side of the mountain amongst a green carpet of vineyards, surrounded by mountains and is one of the most graphical villages in Cyprus. The large village square, unique in graphics and distance in front of the monastery of the Timio Stavro, the medieval line, the narrow roads, the stone-built houses give the village a particular beauty and charm. The houses gather enough interest from an architectural point of view with their main elements being the traditional roof bricks, the flower-filled gardens, the wooden gates as well as the various decorations on the balconies. The traditional art is preserved on the outside and on the inside of the houses, with the old tall bed with the crochet bedspread, the carved couch, the toned chairs and the walls decorated with frames.
